Client Testimonial Form

Please comment on yours / your child's experience with your lessons at Lanzon School of Music.

Ben came highly recommended by a close friend of mine who has been drumming for many years. My first impression of Ben was that he was extremely patient with my kids, aged 5 and 7 when they first started. It's been nearly a year now. He is always encouraging, never rushing. He is a great listener first, before actively discussing and using appropriate language that is easily understood by children. Yet, he is also extremely competent as an adult teacher. Coming from a musical background and having played other numerous musical instruments myself, I find Ben to be extremely knowledgeable, engaging and continually challenging and pushing my musical abilities each new week. I really enjoy that! He has made the acoustic drums my favourite instrument!

Please write about your teacher in your own words, what he/she does, quality of his/her service etc.

Ben is a true professional, having devised his own method of learning steps and classification. It balances natural ability and theory. The result is a great sense of reward and achievement that comes without too much stress. All it takes is practice! Yet he is continually looking for better ways to improve himself as a musician and a teacher.

Please indicate if you would recommend Lanzon School of Music to others interested in learning the drums, guitar, bass guitar, singing or piano and if desired why or why not.

I would definitely recommend Ben as an excellent teacher for all ages. A true professional and extremely intelligent musician and teacher. I've really enjoyed getting to know Ben.
